

ROADMAP: FAMILY-OWNED SAFETY PLANNING

<i>What</i>	<i>How (Steps) Ongoing Processes</i>	<i>Tools/Method</i>
<p>DANGER STATEMENTS: <i>What</i> Children’s Services(CS) is worried will happen to the child if nothing changes (the problem that has to be solved)</p> <p style="text-align: center;"><i>The practitioners journey with the family from the danger statements to safety goals through a structured process to create the final safety plan. This is the how of safety planning</i></p>	<p>1 Preparations</p> <p>2 Develop your Danger Statements and Safety Goals Simple language, understandable to family</p> <p>3 Identify Everything Constructive in Direct Parenting</p> <p>4 Develop CS Bottom-line requirements <i>Honouring</i></p> <p>5 Develop CS Timeframe and Trajectory for Closure</p> <p>6 Build Informed Network with Family <i>Vision</i></p> <p>7 Create Explanation for Children (and everyone else)</p> <p>8 Build (Adult) Safety Plan with Parents & Network Successive process where family <u>demonstrate</u> over time they can make children safe, regular review – honouring success and utilising struggles. <i>Conversation</i> Need to dig into critical issues – dynamics, triggers and stressful times that make abuse/neglect more likely. The family <u>must</u> either come up with or fully own all rules.</p> <p>9 Dealing with ‘Denial’ Issues <i>Compassion</i></p> <p>10 Monitoring by CS and Network</p> <p>11 Involve Child</p> <p>12 Final Child-centred Safety Plan</p>	<p>Signs of Safety Mapping Three Houses, Safety House</p> <p>Signs of Safety Mapping Three Houses</p> <p>Family Safety Circles Words and Pictures, Mapping Three Houses, Safety House</p> <p>Regular Review Meetings</p> <p><i>Family and Network must be given the opportunity to fail so they can demonstrate success, usually through an increasing process of contact. CS must be mindful of the risk and manage this together with the family</i></p> <p>Safety House, Safety Object, Practice Rehearsals of Rules Similar-but-different Role Play Child-focused Safety Plan</p>
<p>SAFETY GOALS: <i>What</i> CS needs to see to know the child is safe and they can close the case (not services)</p>
